

Item: RESO 08-100
Purchase New Ladder Truck
Fiscal Impact: \$621,098.00
Funding Source: Lease Purchase
Account #: General Fund
Budget Opening Required: ☐

ISSUE:

A resolution authorizing the purchase of a Ladder Truck for the West Valley City Fire Department. This unit will replace a 1991 Ladder Truck with 112,000 miles.

SYNOPSIS:

The current ladder truck which is a 1991 was not certified during the last inspection and certification. A bid was obtained to repair the unit and the cost of this was \$460,000.00, which did not include a complete refurbishment of the unit. The unit is currently out of service due to the loss of the ladder certification from Diversified Inspection. Due to the loss of certification, the Fire Department has requested the purchase of a new fire truck.

BACKGROUND:

The replacement of the ladder truck will be with another 75ft. aerial device. This apparatus will serve as the east side ladder company for the city. All of the equipment from the old apparatus will be used and moved to the new unit. This unit was sent out for bid and Pierce Manufacturing met the specifications for our unit.

The Fire Department went out to bid for a new fire truck and received one response from Pierce Manufacturing. Pierce is a well known provider of fire trucks and apparatus.

RECOMMENDATION:

The West Valley City Fire Department recommends the purchase of the new aerial unit from Pierce Manufacturing in the amount of \$621,098.00
